No need as we will need to take this material to get FBE and FBE+ARO. So, They are going to acid wash it.

Brian,

We have 73 pcs. – 3,047.0 ft. – of 8.625"x250W X52 DRL SEAH from ST-72501-21.

The pieces came from Womble under Rel# 122-108116.

The pieces have 100% surface rust and show signs of early stages of light pitting.

Should we do anything about those pieces?

Please review and advise.

Thank you,

Saul
